ZAIN ABIDIN

Brooklyn, NY | abidinzain708@gmail.com | LinkedIn | GitHub | Portfolio Website

SUMMARY

Motivated and detail-oriented Computer Science student experienced in Java, Python, Web Development, and React JS. Seeking a Software Development internship opportunity to apply theoretical knowledge to real-world projects.

EDUCATION

CUNY New York City College of Technology   Brooklyn, NY
Bachelor of Technology in Computer Systems Technology   **Expected** Fall 2025
Concentration: Software Development | **GPA:** 3.87

Relevant Coursework: Data Structures and Algorithms, Multimedia & Mobile Development, Networking Fundamentals, Object Oriented Programming, Web Programming, Programming Fundamentals

Achievements: Honors Scholars Program, Member Fall 2021 – 2025, Dean's List, Member Fall 2021 – 2025

Tech Talent Pipeline Residency Program   Spring 2025
- Highly selective three-month web development training program using React JS, Next JS, JavaScript, and TypeScript designed to provide on-the-job experience to competitive undergraduates throughout NYC.

SKILLS

Programming: Java, HTML, CSS, Python, JavaScript, Flutter/Dart, TypeScript, React JS, Next JS
Technologies: SQL, PostgreSQL, Git/GitHub | Operating Systems: Mac OS, Windows, Linux
Soft Skills: Critical thinking, Verbal communication, Active listening, Organization, Time-management, Adaptability

PROJECTS

E-Commerce Sneaker Website | GitHub
- Developing an e-commerce website using React JS, Bootstrap, CSS, and TypeScript, ensuring responsive design, user-friendly navigation, and dynamic features to enhance the shopping experience.

Personal Website | GitHub | Live Demo
- Developed a personal Portfolio Website using HTML, CSS, and JavaScript to showcase projects and demonstrate technical skills, focusing on responsive design and interactive user experience.

Real-Time Weather Web-App | GitHub | Live Demo
- Built a weather application using HTML, CSS, and JavaScript, featuring real-time data retrieval from APIs; currently refining the design and functionality for improved user experience and performance.

School/College Finder App
- Developed a cross-platform College Finder app using Flutter and Dart, compatible with iOS and Android, to help users explore and compare colleges efficiently.

EXPERIENCE

Software Engineer Backend Intern | Chartbeat   Summer 2025
- Managed and stored project data securely using AWS S3, supporting scalable backend operations.
- Identified and resolved issues impacting system performance and functionality across distributed services.
- Collaborated with the engineering team to maintain reliable data handling and service uptime.
